AVONWICK & NORTH HUISH COMMUNITY HALL PROJECT
Report to APM 2023.

Unfortually over the last year, we have lost a committee member bringing the committee back down to four members.

However, with the help of residents from Avonwick a fabulous Jubilee event was held last year, which again saw our Marquee being put to good use.

As reported at last years AGM, whilst there remains an interest in building a village hall for the Parish, this does not seem viable at this time, and the prospects or doing so are very limited due to parking and HGV turning requirements.

Therefore, we are looking into restructuring our funds with a view to distributing them to local community groups and organisations.

The ANHCHP constitution documents make it clear that: “All funds must be applied to the objects of the Group and for no other purpose”, and the specified objects are:

a. To provide a steering committee to facilitate community engagement regarding the provision of a new Community Hall within the Parish of North Huish.

b. To carry out initial project research in terms of the project planning and development, funding and grant opportunities and regulations by working in partnership with all relevant interest groups, voluntary organisations, Government Departments, statutory authorities and individuals and to establish the feasibility of the construction and sustainable operation of a new Community Hall.

c. The Management Committee seeks to provide for improvement in the local environment for an involved and valued community.

d. To improve community facilities and foster community spirit for the residents and visitors to the area.

Once we have established our criteria, we will be inviting formal applications, and will be seeking an independent adjudicator selected for their good standing within the community.

An AGM will be held over the Summer, as normal the residents will be invited to give their views as part on the agenda.

Gudrun Wiersum. May 2023
